**Subject:** Re: publication date / dispatch date

The official date of publication for the information to which you refer was June 11, 1997. This is for hard copy only as we did not have electronic publication at the time.

**Subject:** publication date / dispatch date

Dear Colleagues:

To establish priority regarding a pending patent application, we need to determine the exact publication date, both hard copy and electronic (internet or otherwise, if available) of the following:

TI: Trioma-based vaccination against B-cell lymphoma confers long-lasting tumor immunity.

AU: R Mocikat et al.

SO: Cancer Research, 1997, vol 57(12), pages 2346-2349.

ISSN: 0008-5472 (print) and 1538-7445 (electronic).

The publication date is given as June 15, 1997 on the hard copy cover. However, was the particular issue available to the public prior to this date, as if so, what was the exact date? A mailing date to subscribers would be of interest to us.

Could you kindly forward the information directly to me as soon as possible?

Thank you so very much for your help.
